Li Li Hsiao

In 1989, Dr. Li-Li Hsiao received her Ph.D. in Pathology and Cell Biology from Thomas Jefferson University in Philadelphia, and her MD from Jefferson Medical School in 1995. She currently works at Harvard University and Brigham and Women's Hospital. The kind, approachable, and humorous Dr. Hsiao is very fond of her students. Every year, she travels the world sharing her views on medical issues and, beyond medicine, on life, the future, and society.
